

MAKE A MOVE FOR WATER

Make a Move for Water is a global call to action to raise awareness and funds for communities around the world who lack access to clean water. During the month of March (in honor of World Water Day taking place March 22), groups worldwide will make a move around their workplace, in their community, at their school, or in their neighborhood to help protect and provide clean water worldwide. You're invited to join the global movement!

Here are a few ideas to help you make a move:

- ◆ save water at home or in your school or workplace (calculate your own virtual water footprint at www.watercalculator.org)
- ◆ organize a Walk for Water (to raise awareness and funds to end the daily walk for water for those in need)
- ◆ make a donation to sponsor a person or many (\$10 ends the walk for water for one person, for life)
- ◆ gather with your family, friends, coworkers and neighbors to pick up trash to keep waterways clean
- ◆ plant trees at your home, place of business or in your community
- ◆ create an online or in-person fundraiser
- ◆ wear blue and bring in a donation for water to work or school
- ◆ promote awareness on social media (graphics provided!) or post your best dance move for water #makeamoveforwater!
- ◆ and more! (share your ideas with us during registration)

There are many ways we can all make a move to make a lasting impact on the future of water now and for generations to come. Make your pledge of action and get moving this March! The event is free of cost. Donations are encouraged to help provide clean accessible water to communities in need. Together, we can make a lasting impact for thousands of people throughout the world. Register today at www.cleaninternational.org.
